Why you need a REALTOR®

1. They have loads of expertise

Real estate has its own language, full of acronyms and semi-arcane jargon, and your Realtor is trained to speak that language fluently.

Plus, buying or selling a home usually requires dozens of forms, reports, disclosures, and other technical documents. Realtors have the expertise to help you prepare a killer deal—while avoiding delays or costly mistakes.

2. They have turbocharged searching power

Realtors have access to more listings than you can find on your own. Sometimes properties are available but not actively advertised. A Realtor can help you find those hidden gems.

Plus, a good local Realtor is going to know the search area way better than you ever could. Your Realtor is equipped to know the ins and outs of every neighborhood, so they can direct you toward a home in your price range that you may have overlooked.

3. They have bullish negotiating chops

Any time you buy or sell a home, you're going to encounter negotiations and as today's housing market heats up, those negotiations are more likely than ever to get a little heated. You can expect lots of competition, cutthroat tactics, all-cash offers, and bidding wars. A Realtor will help draw up a purchase agreement that allows enough time for inspections, contingencies, and whatever is crucial to your particular needs.

4. They're connected to everyone

Realtors make it their mission to know just about everyone who can possibly help in the process of buying or selling a home. Mortgage brokers, real estate attorneys, home inspectors, home stagers, interior designers—and they're all in your Realtor's network. Use them.

5. They adhere to a strict code of ethics

Not every real estate agent is a Realtor, who is a licensed real estate salesperson who belongs to the National Association of Realtors®, the largest trade group in the country.

Realtors are held to a higher ethical standard than licensed agents and must adhere to a Code of Ethics.

6. They're your stage parent/data analyst/therapist - all rolled into one

The thing about Realtors: They wear a lot of different hats. Sure, they're salespeople, but they actually do a whole heck of a lot to earn their commission. They're constantly driving around, checking out listings for you. They spend their own money on marketing your home (if you're selling) and they're researching comps to make sure you're getting the best deal.

What is TITLE INSURANCE?

WHAT IS TITLE INSURANCE?

Title insurance is different from other forms of insurance because it insures against events that occurred before the title policy is issued, as opposed to insuring against events in the future, as health, property and life insurance do. Title insurance is in essence loss prevention insurance.

When purchasing real estate, it is of utmost importance that you receive clear title to the property. In order to do so, you must first be informed of any existing rights or claims that may be asserted against the property, then any of those rights or claims that are unacceptable to you must be resolved or extinguished prior to your purchase of the property.

In Texas, many property records go back to grants from the 1880s, hence it is important that the full history of the property is thoroughly researched and presented to you.

WHEN IS THE PREMIUM PAID?

Unlike other forms of insurance, for a relatively low one-time premium, the original title premium is your only cost protecting you for as long as you and your heirs own the property. The premium is paid at closing and there are no annual payments to keep your Owner's Title Insurance Policy in force. Rates for title insurance are regulated by the state and are promulgated in Texas.

Real Estate DEFINITIONS

AMORTIZATION – The killing off of an existing debt by regular partial payments.

APR – Annual Percentage Rate. The yearly interest percentage of a loan as expressed by the actual rate of interest paid.

APPRAISAL – An estimate of value of property from analysis of facts about the property; an opinion of value.

BROKER – One who acts as an agent for another in negotiating sales or purchases in return for a fee or commission.

CHAIN OF TITLE – Beginning with a conveyance out of an original source of title such as a government, each succeeding deed, will or other medium which conveys and transfers the title to succeeding owners constitutes a link in the chain of title. The chain of title is the composite of all such links.

CLOSING – In some areas called a “settlement.” The process of completing a real estate transaction during which deeds, mortgages, leases and other required instruments are signed and/or delivered, an accounting between the parties is made, the money is disbursed, the papers are recorded, and all other details such as payment of outstanding liens and transfer of hazard insurance policies are attended to.

CLOSING DISCLOSURE – The five-page Closing Disclosure must be provided to the consumer three business days before they close on the loan. The Closing Disclosure details all of the costs associated with their mortgage transaction.

In the title industry, it means the depositing with an impartial third party (typically an escrow agent or title company) of anything pertaining to a real estate transaction including money and documents of all kinds. The money and documents are to be disbursed and delivered to the rightful parties by the escrow agent or title company when all conditions of the transaction have been met.

ESCROW AGREEMENT – A written agreement usually made between buyer, seller and escrow agent, but sometimes only between one person and the escrow agent. It sets forth the conditions to be performed incident to the object deposited in escrow, and gives the escrow agent instructions.

UNDERSTANDING TITLE INSURANCE

Before issuing a title policy, title companies check for defects by examining public records, including deeds, mortgages, wills, divorce decrees, court judgments, tax records, liens and maps. The title search determines who owns the property, what outstanding debts are against it and the condition of the title. If someone claims interest in the property, the title company will pay for any actual loss (up to the amount of coverage) and defend your title in court when:

1. A deed or other document in your chain of title is invalid;
2. A lien against your title exists because a previous owner failed to pay either a mortgage or deed of trust, judgment, or a charge by a homeowner's association;
3. A lien exists for labor materials furnished by a contractor without your consent;
4. Leases, contracts or options on your land weren't recorded in the public records or disclosed to you;
5. A notary public error or someone failed to properly sign a document in your chain of title;
6. The title policy failed to disclose legal restrictions on how you can use your property;
7. An easement exists that isn't in public records and that you don't know about;
8. Other liens or encumbrances on your title exist but aren't listed in the policy exceptions.

Possible
defects
include:

- Errors or omissions in deeds
- Mistakes made in examining records
- Forgery and undisclosed heirs
- Liens for unpaid taxes or contractors

IS MY POLICY STILL ACTIVE IF I REFINANCE MY HOME?

Most lenders require borrowers to buy new loan title policies when refinancing. When the new loan pays off the existing loan, the old title policy is no longer in effect. A title company issues new policies in connection with new loans. Title companies must discount the premium if refinancing occurs within seven years of the original loan date. Your owner title policy remains in full force and effect after a refinance.

WHO DOES TITLE INSURANCE PROTECT?

Most lending institutions won't loan money for a house or other property unless you provide a loan title policy. This policy protects the lender's investment by paying the mortgage if a title defect voids the owner's/buyer's title. Investors who buy the new loan often require a loan title policy. When you buy a house, title companies also issue an owner's policy, unless you reject it in writing. You don't have to buy an owner's policy. The owner's policy protect your title against the covered risk set out in policy.

CHICAGO TITLE

Why is Title Insurance IMPORTANT TO YOU?

1. PROTECTS YOUR LARGEST INVESTMENT. A home is probably the single largest investment you will make in your life. For a one-time fee, owner's title insurance protects your property rights for as long as you own your home.

2. REDUCES YOUR RISK. If you're buying a home, there are many hidden issues that may pop up only after you purchase your home. Getting an owner's title insurance policy is the best way to protect yourself from unforeseen legal and financial title discrepancies.

Unexpected title claims include:

- outstanding mortgages and judgments, or a lien against the property because the seller has not paid his taxes
- pending legal action against the property that could affect you
- an unknown heir of a previous owner who is claiming ownership of the property

3. YOU CAN'T BEAT THE VALUE. Owner's title insurance is a one-time fee that's very low relative to the value it provides. It typically costs around 0.5% of the home's purchase price.

4. COVERS YOU. As long as you own your home, owner's title insurance protects your property rights.

5. NOTHING COMPARES. Homeowners insurance and warranties protect only the structure and belongings of your home. Getting owner's title insurance ensures your family's property rights stay protected.

6. 8 IN 10 HOMEBUYERS AGREE. Each year, more than 80% of America's home buyers choose to get owner's title insurance.

7. PEACE OF MIND. If you're buying a home, owner's title insurance lets you rest assured, knowing that you're protected from inheriting most existing debts or legal problems, once you've closed on your new home.

MUNICIPAL UTILITY DISTRICT Basics

A Municipal Utility District (MUD) is one of several types of special districts that function as independent, limited governments. The purpose of a MUD is to provide a developer an alternate way to finance infrastructure, such as water, sewer, drainage, and road facilities. Managed by a Board elected by property owners within the MUD, a MUD may issue bonds to reimburse a developer for authorized improvements and the MUD will utilize property tax revenues and user fees received from water and sewer services operated by the MUD to repay the debt. As the MUD pays off its debt, more of its tax revenue can be directed to other services.

Originally, MUDs were very limited in what they were allowed to finance and what services they could provide. Over time, MUDs began taking on more responsibilities and providing enhanced services for their residents such as parks and recreation, deed restriction enforcement, and solid waste service. MUDs rely on the County to provide police and road maintenance services and Emergency Service Districts (ESDs) for providing fire protection.

What is a Title COMMITMENT

Schedule A: This is where you will find the who, what, where and how much information. The most important information here will be the name of the person who holds the existing title, the legal description of the land and the name of the proposed insured (buyer), the sales price and the name of the lender. All parties and the title company should make sure all of the information is accurate when it is compared to the sales contract.

Schedule B: This is the section of the title commitment that addresses where other parties have any interest or control of the use of the property. Examples of this are utility easements and building setbacks. A utility easement is a common item to find here. This would be a part of the land that a utility company has the right to use. A setback prevents the owner from building a certain distance from a property line. Schedule B is also the section in which exceptions will be noted. Exceptions in this case are anything that will not be covered by title insurance.

Schedule C: This is the section in which any issues must be resolved before the buyer can close on the property. Common issues here are an existing mortgage that needs to be paid off, a marital status issue or unpaid taxes and liens on the property.

Schedule D: This final section outlines all parties who will collect any part of the insurance premium including underwriters, title agents and attorneys. It will also show the amounts being paid for the owner's title insurance policy, the mortgagee policy amount and any endorsements.

What is a HOME WARRANTY

A HOME WARRANTY is a contract between a homeowner and a home warranty company that provides for discounted repair and replacement service on a home's major components, such as the furnace, air conditioning, plumbing and electrical system. A home warranty may also cover major appliances such as washers and dryers, refrigerators and swimming pools. Most plans have a basic component that provides all homeowners who purchase a policy with certain coverages. In addition to the standard items, expanded coverage can usually be added at a premium.

A home warranty is not the same as homeowners insurance, nor is it a replacement for homeowners insurance. Homeowners insurance covers major perils such as fire, hail, property crimes and certain types of water damage that could affect the entire structure and/or the homeowner's personal possessions. A home warranty does not cover these perils.

Home warranty companies have agreements with approved service providers. When something that is covered by a home warranty breaks down, the homeowner calls the home warranty company, and the home warranty company sends one of its service providers to examine the problem. If the provider determines that the needed repair or replacement is covered by the warranty, the homeowner only pays a small service fee per your service call at the time service is rendered.

The annual cost can vary depending on coverages and exclusions, but typically ranges from a few hundred dollars for small condominiums to eight hundred dollars for larger homes. This is a negotiable item on the contract.

THE IMPORTANCE OF SURVEYS

Here are some of the principal reasons to obtain and review a survey:

- To determine whether improvements (buildings, driveways, fences, utility lines, etc.) intended to be located on your property encroach into a neighbor's property, or vice-versa.
- To mark the boundaries on the ground, so that they are clear to observers standing on or near the property.
- To discover trails and other evidence of use by third parties that might suggest that someone has established an implied easement over a portion of the property, or might claim a portion of the property by reason of adverse possession.
- To provide the evidence needed by the title insurer to delete certain standard exceptions to coverage and thereby provide "extended coverage" against off-record title matters (including matters that would be revealed by an accurate survey).

WHEN TO USE AN EXISTING SURVEY

The TREC Contract was revised several years ago giving the option to sellers and buyers to use existing surveys when appropriate. Per the TREC contract, not only does the buyer have to accept the survey, but lenders and title companies must also approve and accept it. Survey affidavits assist in research and review, however, the best information comes from those who have been on the property, particularly prospective buyers and their REALTORS®.

To avoid costly delays, the following guidelines for using an existing survey are provided:

- Survey should be completely legible. It must have the property address, complete legal description, flood certification and the surveyor's signature and seal on the drawing.

- Survey must reflect all permanent improvements that are currently on the property, including pools, fences, spas, decks, and additional square footage. If the sellers have added permanent structures that are not shown on survey, it is important to identify new improvements, such as a pool, gazebo, fence, etc. when signing the survey affidavit. This notifies all parties that the survey provided is not an accurate rendering of the property as of the current date.

Almost always it is advisable to forego using an existing survey if improvements have been built since the time the initial survey work was performed.

When an incorrect survey is delivered to the buyer and their agent, a new one should be requested. The title company and lender must be informed of the need for a new survey.

WHEN TO OBTAIN A NEW SURVEY

It is recommended that a purchaser obtain a new survey if one or more of the following conditions exist:

- A survey shows that all significant improvements currently located on the property do not exist or cannot be found.
- Surveys exist only for portions of the property, but the property as a whole consists of two or more parcels that are not platted and that are described by "metes and bounds," such that without a surveyor's interpretation of the legal descriptions one cannot be certain of whether the parcels are contiguous, or whether there might exist a "gap" between, or overlap of, property boundaries.

Even when one or more of the foregoing conditions are present, a survey might not be necessary, and the purchaser might wish to bear the risk of proceeding without a survey; unless required by your lender.

HOMESTEAD EXEMPTION

WHAT IS A HOMESTEAD EXEMPTION?

Property tax exemptions are one of the most meaningful and simple ways to reduce property taxes. Homestead exemptions are granted by the county appraisal district where the property is located. The exemption reduces a homeowner's property tax bill by removing part of the home's value from taxation. All Texas homeowners may receive a General Residence Homestead Exemption of \$25,000 on the value of their property for school taxes. Other taxing entities may also offer exemptions of some percentage of the home's value. Other exemptions are available to homeowners who are over 65 or disabled, and require the same application process. This information can be found on the Texas Comptroller website link at the bottom of the page.

HOW DO I KNOW IF I QUALIFY FOR A HOMESTEAD EXEMPTION?

These requirements must be met to receive the exemption:

1. You must own your home on January 1st of the year for which you are applying (If you are over 65 and/or disabled, January 1st ownership and residency are not required.)
2. You must reside at the home as your principal residence on January 1st of that year, and not claim any other property as homestead.
3. Only individual homeowners (not corporations or other entities) may receive a homestead exemption.
4. A homestead can be a house, condominium or a manufactured home. It can include up to 20 acres, if the land is also owned by the homeowner and used as a yard, or for another purpose related to the residential use of the home.
5. You must apply between January 1st and April 30th of the year for which you want the exemption.

HOW DO I GET A HOMESTEAD EXEMPTION?

1. Complete the APPLICATION FOR RESIDENTIAL HOMESTEAD EXEMPTION (available on the websites of most county appraisal districts, or at the Texas Comptroller's website at: <http://comptroller.texas.gov/taxinfo/taxforms/50-114.pdf>)
2. Include a copy of your DRIVER'S LICENSE or IDENTIFICATION CARD from the Texas Department of Public Safety at www.txdps.state.tx.us. The address MUST MATCH the homestead address.

Texas Homestead Exemption FAQ

Property tax exemptions are one of the most meaningful and simple ways to reduce property taxes. The Texas legislature has provided numerous property tax exemptions for Texas taxpayers. Exemptions for homestead, over 65 homestead, disabled homestead, disabled veteran is just the start. Texas property taxes can be reduced by legitimate use of exemptions. This document was prepared by the Texas Comptroller and is presented for your convenience.

Q: Do I, as a homeowner, get a tax break from property taxes?

A: You may apply for homestead exemptions on your principal residence. Homestead exemptions remove part of your home's value from taxation, so they lower taxes.

Q: Do all homes qualify for homestead exemptions?

A: No, only a homeowner's principal residence qualifies. To qualify, a home must meet the definition of a residence homestead: The home's owner must be an individual (for example: not a corporation or other business entity) and use the home as his or her principal residence on January 1 of the tax year. If you are age 65 or older, the January 1 ownership and residency are not required for the age 65 homestead exemption.

Q: What is a homestead?

A: A homestead can be a separate structure, condominium or a mobile home located on owned or leased land, as long as the individual living in the home owns it. A homestead can include up to 20 acres, if the land is used as a yard or for another purpose related to the residential use of the homestead.

Q: How do I get a homestead exemption?

A: You must file an Application for Residential Homestead Exemption with the county appraisal district between January 1 and April 30 of the tax year -- up to one year after you pay your taxes. During the year, if you turn 65 or become disabled, you must apply for the 65 or older or disabled exemption no later than one year from the qualification date. Once you receive the exemption, you do not need to reapply unless the chief appraiser sends you a new application. In that case, you must file the new application. If you should move or your qualifications end, you must inform the appraisal district in writing before the next May 1st. A list of appraisal district addresses and phone numbers is available online.

Q: What homestead exemptions are available?

A: There are several types of exemptions you may receive.

School taxes: All residence homestead owners may receive a \$25,000 homestead exemption from their home's value for school taxes.

County taxes: If a county collects a special tax for farm-to-market roads or flood control, a residence homestead owner may receive a \$3,000 exemption for this tax. If the county grants an optional exemption for homeowners age 65 or older or disabled, the owners will receive only the local-option exemption.

Age 65 or older and disabled exemptions: Over-65 and/or disabled residence homestead owners may qualify for a \$10,000 homestead exemption for school taxes, in addition to the \$25,000 exemption for all homeowners. If the owner qualifies for both the \$10,000 for over-65 homeowners and the \$10,000 exemption for disabled homeowners, the owner must choose one or the other for school taxes. The owner cannot receive both exemptions.

Optional percentage exemptions: Any taxing unit-including a city, county, school, or special district-may offer an exemption of up to 20 percent of a home's value. But, no matter what the percentage is, the amount of an optional exemption cannot be less than \$5,000. Each taxing unit decides if it will offer the exemption and at what percentage. This percentage exemption is added to any other home exemption for which an owner qualifies. The taxing unit must decide before July 1 of the tax year to offer this exemption.

Optional over-65 or disabled exemptions: Any taxing unit may offer an additional exemption of at least \$3,000 for taxpayers age 65 or older and/or disabled.

Q: How do I qualify for a disabled person's exemption?

A: You are eligible for this exemption if you can't engage in gainful work because of a physical or mental disability or you are 55 years old and blind and can't engage in your previous work because of the blindness. To qualify, you must meet the Social Security definition for disabled. You qualify if you receive disability benefits under the federal Old Age, Survivors and Disability Insurance Program administered by the Social Security Administration. Disability benefits from any other program do not automatically qualify you. To prove your eligibility, you may need to provide the appraisal district with information on disability ratings from the civil service, retirement programs, or from insurance documents, military records, or a doctor's statement.

Q: What if I miss the deadline for filing for a homestead exemption?

A: You may file for a homestead exemption up to one year after the delinquency date -usually February 1. If you are 65 or older or disabled, you must apply for the exemption no later than one year from your 65th birthday or one year after the delinquency date, whichever is later.

Q: May I continue to receive the residence homestead exemption on my home if I temporarily move away?

A: If you temporarily move away from your home, you may continue to receive the exemption if you do not establish a principal residence elsewhere, you intend to return to the home, and you are away less than two years. You may continue to receive the exemption if you do not occupy the residence for more than two years only if you are in military service or live in a facility providing services related to health, infirmity or aging from the two-year period.

Q: May I continue to receive the residence homestead exemption on my home if I temporarily move away?

A: If you temporarily move away from your home, you may continue to receive the exemption if you do not establish a principal residence elsewhere, you intend to return to the home, and you are away less than two years. You may continue to receive the exemption if you do not occupy the residence for more than two years only if you are in military service or live in a facility providing services related to health, infirmity or aging from the two-year period.

Q: Does the school tax ceiling transfer when a person who is age 65 or older or is disabled or is the surviving spouse (age 55 or older) of a person who was age 65 or older moves to another home?

A: A percentage of the school tax ceiling may be transferred. The ceiling on the new home would be calculated to give you the same percentage of tax paid as the ceiling on the original home. For example, if you currently have a tax ceiling of \$100, but would pay \$400 without the ceiling, the percentage of tax paid is 25 percent. If you move to another home and the taxes on the new homestead would normally be \$1,000 in the first year, the new tax ceiling would be \$250, or 25 percent of \$1,000.

Q: If I am the surviving spouse of a disabled person, am I entitled to the school tax ceiling?

A: No, only surviving spouses (55 years of age or older) of persons who were 65 years of age or older when they died may benefit from the tax ceiling.

Q: If I am 65 years of age or older, disabled, or a surviving spouse who is age 55 or older, does a tax ceiling apply to county, city or junior college district property taxes?

A: Yes, if the county commissioners court, city council or board of the junior college district authorizes a tax limitation on the homesteads of persons 65 years of age or older or disabled persons. The taxing unit's governing bodies or voters may adopt the limitation. This local option exemption does not apply to other special districts such as water, hospital, etc.

Q: Can the local option ceiling transfer if the owner who is age 65 or older or disabled moves to another home?

A: Yes, but the home must be located within the applicable taxing unit - city, county or junior college district. The ceiling on the new home is calculated the same as the school district.

Q: Can the local option ceiling transfer to another home owned by the surviving spouse who is 55 year of age or older?

A: No, regardless of the underlying qualifications (65 & older or disabled person).

Q: Is the disabled veteran's exemption the same as the disabled person's exemption

A: No. To receive a disabled veteran exemption, you must either be a veteran who was disabled while serving with the U.S. armed

forces or the surviving spouse or child (under 18 years of age and unmarried) of a disabled veteran or of a member of the armed forces who was killed while on active duty.

In order to qualify for a disabled person exemption, you can't engage in gainful work because of physical or mental disability or you are 55 years old and blind and can't engage in your previous work because of your blindness. If you receive disability benefits under the federal Old Age, Survivors and Disability Insurance Program administered by the Social Security Administration, you will qualify for the disabled person exemption.

Q: What is the amount of the disabled veteran's exemption?

A: The exemption amount that a qualified disabled veteran receives depends on the veteran's disability rating from the branch of the armed service:

Disability Rating	Exemption Amount
10% to 30%	\$5,000 from the property's value
31% to 50%	\$7,500 from the property's value
51% to 70%	\$10,000 from the property's value
71% to 100%	\$12,000 from the property's value

The disabled veteran must be a Texas resident and must choose one property to receive the exemption for all property tax purposes.

Q: May I file for a disabled veteran's exemption after the deadline has passed?

A: Yes. The deadline for filing for a disabled veteran's exemption is between January 1 and April 30 of the tax year. However, you may file for a disabled veteran's exemption up to one year from the delinquency date. To file for a disabled veteran's exemption, you must complete the Application for Disabled Veteran's or Survivor's Exemptions form.

REFINANCING your home

WHY DO I NEED A NEW LENDER'S POLICY?

The original lender's title insurance policy protects the lender's interest on the original loan. With the new refinanced loan, the original loan will be paid off, and the lender will require protection of its interest for the new loan. From the lender's standpoint, a refinanced loan is no different than any other mortgage loan. In addition, if the loan is sold in the secondary market, investors like Fannie Mae will require the security of title insurance on the property.

The good news is the consumer receives a discount on lender's policies for refinance during the first seven years of the loan. If your refinanced loan is with the same lender as your original loan, your lender may provide additional discounts. Chicago Title will be happy to point out ways you can save on your refinance loan.

DIDN'T THE ORIGINAL TITLE SEARCH RESOLVE OWNERSHIP ISSUES?

The lender needs the title examined again to confirm that no liens or judgments, such as liens filed by contractors, child support liens or other legal judgments, have been recorded against you or your property. Confirming the absence of these items and other title defects protects the lender's security interest in your property.

DO I ALSO NEED TO GET A NEW OWNER'S TITLE POLICY?

You will be glad to know that your original owner's title insurance policy protects your ownership rights for as long as you and your heirs own your property, as long as no value improvements have been made. So there is no need to get another owner's policy on a refinance loan.

If you did not purchase an owner's title policy, but now want the protection title insurance gives you, Chicago Title can issue an owner's title policy for you.

Life of a TITLE SEARCH

Title insurance is a contract of indemnity between the insured and a title company. The form of the contract is determined by the Texas Department of Insurance. Likewise, title insurance rates in Texas are promulgated by the Department and are uniform for all title companies.

THERE ARE TWO MAJOR TYPES OF POLICY

The Owner's Policy of Title Insurance
is issued to an owner/purchaser and insures against certain listed title risks.

The Mortgagee Policy of Title Insurance
is issued to a lender and insures the validity of the lender's lien against the property.

Before issuing a title policy, a careful search is made of the county, state, and federal records that affect real estate. This is accomplished by using the company abstract plant which maintains references to every deed, mortgage, death, divorce, etc. which might affect property. These instruments are examined by lay examiners employed by the title company. Based upon the results of the examination, the title company decides whether to issue a policy.

LIFE OF A TITLE SEARCH

- Customer Service verifies legal property description and how title to real property is held.
- Preliminary order and title search are opened.
- Preliminary search of real property is done.

- ☐ If you will not be present to sign documents at closing and are planning to use Power of Attorney for signature of legal documents, have it approved by the title company prior to closing. Top 10 Real Estate CLOSING DELAYS

1. DETERMINING OWNERSHIP

Verify all owners/sellers names; make sure they are listed on your contract. If any changes have occurred in marital status, if a death has occurred, or if the property is vested in a trust, we will need to know in advance.

2. FOREIGN SELLER

At the listing appointment, determine if the seller is a “foreign person,” as defined by applicable law. If you believe the seller could be classified as a foreign person, notify your escrow officer and all parties to the contract. A foreign person requires certain IRS documentation with most of the obligation falling upon the buyer.

3. LENDER INFORMATION

We are required to obtain the seller’s loan payoff information. We will need the name and phone number of the lender, the loan number, and the full social security number for each person on the loan.

4. SURVEY

If an existing survey is to be provided to the buyer by the seller per the contract, it must be accompanied with the Residential Real Property Affidavit (T47). Failure to provide the affidavit with the existing survey could result in the seller paying for a new survey.

5. IDENTIFICATION

Valid, unexpired U.S. government issued photo ID is required for each person signing documents. A State issued driver’s license, a military ID and/or a passport are acceptable forms of identification.

6. CLOUDS ON TITLE

Tax liens, judgments, HOA liens, missing liens, IRS liens, bankruptcy and any other involuntary liens will be addressed and some could take an extended time to clear. It is important to have open lines of communication between the seller and the title company to clear any clouds on title.

7. CONTRACT DATES

All dates in the contract should be complete. The effective date is the catalyst for all requirements/conditions in the contract. Incomplete dates in the contract can lead to confusion and misunderstandings which could delay your closing and funding!

8. REPAIRS NOT COMPLETED

Agreed repairs must be completed in a timely fashion. Completion of repairs in the contract is often a lender requirement to satisfy the loan. Lenders can require the appraiser to re-inspect the property prior to closing to certify the repairs were completed.

9. HOA & HOA ADDENDUMS

If the property is in a subdivision with a mandatory owners’ association, pay special attention to the boxes and blanks on the HOA addendum indicating the party responsible for delivering the subdivision information as well as the time frame required for delivery.

10. SHORT SALES & FORECLOSURES

It is important to understand the process when contracting into a short sale or foreclosure. Even after the contract is signed, the current lienholder still requires the seller to go through a process before approving the sale.

THE APPRAISAL PROCESS

ANNUAL HOME VALUE APPRAISAL

On January 1, your home's appraised value for the year is based on its condition and what the property could sell for on January 1. The appraisal district arrives at a figure by calculating the market value of your property. Your home's condition is key as you look at factors that may affect the value. Any damage or improvements after this date, for example, a hail storm damages your roof in April, or you install the addition of solar panels in July, will not affect the taxable value of your home in this year.

HOME VALUE/ APPRAISAL ARRIVES IN MAILBOXES

Late April-Early May, a piece of mail arrives from the appraisal district, telling you the value of your home for tax purposes. Look over the numbers carefully. If your property is not described correctly or if the value looks out of whack, you can protest it.

DEADLINE TO FILE A "NOTICE OF PROTEST"

May 15 is the deadline for filing a "Notice of Protest" of your appraised value. What's the best way to file? You have a couple of options. You can use the form on the back of the "Notice of Appraised Value" that you received from the appraisal district or you may be able to file your protest online.

MEET WITH THE APPRAISAL STAFFER AND THE ARB

In June, following the filing of your "Notice of Protest," your Appraisal District will send you a letter with two dates: an informal meeting with an appraisal staffer and your formal hearing date with the ARB, a group of independent residents appointed to hear these challenges. During the informal meeting, the staffer will review the numbers with you. Bring all of your documentation: Information on comparable homes (records are available on the appraisal district's website), perhaps an independent appraisal if you recently refinanced your house, or photos, repair estimates and other records showing damage that may devalue your home. Once you and a staffer have hashed it out, the district may offer to reduce your value by a certain amount. If you're satisfied, you can accept it.

If not, you can keep your date with the ARB, or technically, with a three-member panel of ARB members. Before that hearing, you have a right to see all of the information the district appraisers plan to present, so be sure to contact the appraisal district to request those documents.

If you take your case to the ARB, come prepared and expect a rapid -fire proceeding. The entire hearing will likely take 15 to 30 minutes. In that time you will be placed under oath and given a chance to present any evidence or witnesses supporting your case. You must conclude by stating the figure you believe your property is worth. Someone from the appraisal district will likely question you and provide additional evidence. Then you can question the appraiser or any witnesses presented by the appraisal district. Members of the ARB can ask clarifying questions, too. Finally, each side gets to make a closing statement, so once again you'll want to reiterate what you believe your property is worth and why. The three-member panel will discuss the case and reach a recommended value.

2100 REAL ESTATE

PRICING TO SELL

Once you're ready to put your home on the market, it's important to price it to sell quickly and close to your initial list price. Many factors contribute to the value of your home. Understanding them and enlisting the help of a real estate agent can help you price your home to sell.

CURRENT MARKET VALUE

The best way to assess the current market value of your home is to ask a real estate agent to conduct a Comparative Market Analysis (CMA). The CMA is usually free and helps determine the fair market value of your home based on evaluation of recently sold homes in your neighborhood that match your home's age, features and size.

CONSIDERATIONS WHEN SETTING PRICE

Location — A desirable location (proximity to desirable amenities) adds the most value.

Seller Needs — Is there a need to sell quickly? Is the sale contingent on another sale?

Season — More homes are listed between spring and summer, creating more competition.

Condition of the Home — Does the home have strong curb appeal or attractive features?

Other Factors — Current interest rates, economic conditions, crime rates, etc.

COMMON TERMS

Days on Market (DOM) — The number of days a property has been listed on the market. A higher DOM can signal an unrealistic sales price.

Inventory — The number of homes for sale on the Multiple Listing Service (MLS). A small inventory indicates a high demand; therefore, higher prices.

Seller's Market — A real estate market characterized by small inventories and short DOM. It's common for multiple offers to be made on properties, sometimes exceeding the list price.

Buyer's Market — Occurs when sales slow and inventory accumulates. This market is characterized by high DOM and falling sales prices, giving buyers greater opportunities.

Balanced Market —

Usually a transitional phase between a Seller's and Buyer's Market when neither party has an advantage.

Median Sales Price — The midpoint between the most expensive house and least expensive house sold in an area during a specific time.

PRICING TO SELL

Everyone knows the importance of making a good first impression. Staging your home highlights its best features. Keeping it neat and clean at all times also makes your home more appealing to prospective buyers, who can drop by at a moment's notice.

Gender-Neutral Master Suite — The master bedroom should appeal to both genders. Try to eliminate any decor that may be too gender specific.

Furniture Placement — Arrange furniture to showcase the shape of the room and emphasize space.

Power of Paint — Need to make a room appear larger than it actually is? Paint that room and the room adjacent to it the same color, creating the illusion of one large space.

Kitchen — The kitchen is a major focal point of most homes. Update, replace or paint cabinets, drawers, appliances, hardware, etc. to enhance appeal.

Depersonalize — Prospective buyers want to see your home, not your photos or personal mementos. Remove as many of these items as possible, which will also eliminate clutter.

Curb Appeal — Unfortunately, a book is often judged by its cover. Maintain the exterior of your home (lawn, landscaping, walkways, lighting, etc.) and keep it as clean as the interior.

Declutter — By keeping your home clean and organized, you automatically make it appear larger and more welcoming.

Aroma — Try to refrain from cooking any strong-smelling foods, such as fish. Instead, bake some cookies or fill your home with fresh flowers for a pleasant scent.

Lighting — Don't be afraid to fill your home with natural light; the brightness tends to improve both atmosphere and mood.

Temperature — Maintain a comfortable temperature so prospective buyers feel at ease touring your home.

Privacy — Be sure to give prospective buyers time alone with their real estate agent to address any candid questions they may have.
